#### PREFACE

The Government Estimates present to the Legislative Assembly the expenditure proposals for the 1988-89 fiscal year, excluding the Legislative Assembly Estimates which are presented in a separate document. The Estimates are presented in a program budgeting format with both operating and capital expenditure combined to determine the spending requirements for an individual program. A program is defined as a distinct service to the people of Alberta. Estimates are detailed by program within a given department, with each program as a separate vote. The Legislative Assembly will be asked to appropriate sums from the General Revenue Fund to each vote under section 2 of the Appropriation Act, 1988. Also to be appropriated under section 1 of the Appropriation Act, 1988 are Supplementary Estimates for 1987-88.

In accordance with section 29 of the Financial Administration Act, statutory budgetary expenditure (authorized by legislation other than the Appropriation Act and which affects net assets) and statutory non-budgetary disbursements (those authorized by legislation other than the Appropriation Act and which do not affect net assets) are also reported in the Estimates. Statutory budgetary expenditure (including revolving funds) is shown with the appropriate departments. This provides a consolidated presentation of the total expenditure (both voted and statutory) associated with the activities and services of each responsible department, and reports estimated expenditure in a manner consistent with that used in the reporting of actual expenditure in the Public Accounts of Alberta. Voted non-budgetary disbursements representing investments in assets are reported separately from voted budgetary expenditure.

Descriptions of departmental programs, including source of authority, objective, delivery mechanism, services provided and a sub-program breakdown are included in the Estimates to enhance understanding of public expenditure. These descriptions have no specific legislative significance but will be used by the Provincial Treasurer as a basis for determining the purposes for which funds are appropriated, in accordance with section 39 of the Financial Administration Act. Transfers of funds between sub-programs in a given program and between object groupings in a given program are subject to Treasury Board control.

The 1987-88 Estimates and 1986-87 Actual Expenditure have been adjusted to conform to the program structures which will exist in 1988-89.

Data on full-time equivalent employment and permanent full-time positions are provided for each program, except for those programs which are delivered by grant-funded boards, agencies, Crown corporations and commissions. Manpower information is also reported for revolving fund operations where applicable. A summary of manpower by department has been provided to show 1988-89 full-time equivalent employment authorization and comparative 1987-88 Estimates. Full-time equivalent employment includes direct employment of individuals under salaries, hourly wages and employment of individuals under contractual arrangements, excepting fees paid under contract for private services.

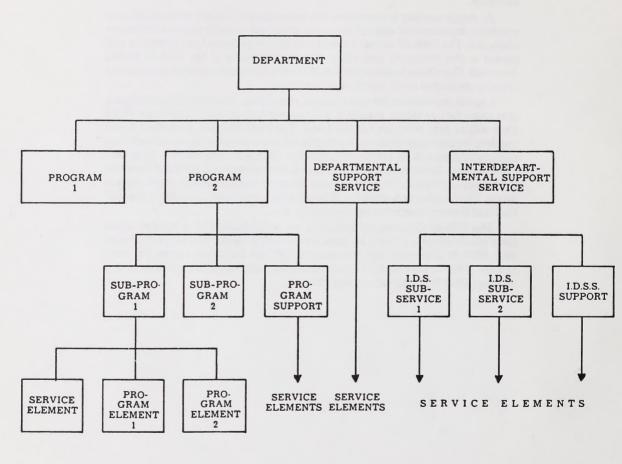

In addition to departmental programs and sub-programs, the 1988-89 Estimates contain departmental support services (D.S.S.s) and interdepartmental support services (I.D.S.S.s). Detailed explanations of these services are contained in the accompanying glossary of terms. Although neither type of support service provides services directly to Albertans, they are identified as separate votes. Since the I.D.S.S.s support the Government as a whole (for example, public works construction, telecommunication services, land acquisitions and central personnel administration), they are not directly costed to individual programs. In the interests of controlling costs and service levels, and maintaining Government-wide standards for these I.D.S.S.s, a central budgeting approach is followed. Descriptive information is not provided for departmental support services in the departmental estimates as these services are essentially similar in all departments. A summary by element is included for information in each case. The accompanying figure and glossary of terms illustrate the various components of the program structure.

As supplementary information, the operating and capital portions of each program, departmental support service or interdepartmental support service are displayed. The 1986-87 Actual Expenditure figures presented for operating and capital in this document may differ from those shown in the 1986-87 Public Accounts. Certain expenditure items which were previously reported as operating are now considered to be capital, and vice versa.

Capital expenditure for constructing, renovating, furnishing and equipping post-secondary facilities, hospitals and nursing homes and the Oldman River Dam will be paid from the Capital Fund. The Fund borrows such sums as are required for capital projects and is reimbursed over a period of years through debt repayment grants from Advanced Education, Hospitals and Medical Care, and Environment. In previous years, this capital expenditure was financed by direct capital appropriations from the General Revenue Fund estimates of the departments. The Legislative Assembly will be asked to approve the expenditure plans of the Fund through a separate Appropriation Act.

The 1988-89 Government Estimates are supplemented by a support document which contains a listing of elements for each program and support services with 1988-89 Estimates and Comparable 1987-88 Estimates shown for each element. This supplementary document has no specific legislative significance and is being tabled for information purposes only.

#### COMPONENTS OF THE PROGRAM STRUCTURE

#### GLOSSARY OF TERMS

#### Program

—a distinct service to the people of Alberta.

#### Departmental Support Services (D.S.S.)

—any departmental activity which renders administrative or technical support to more than one program, or any other activity which, even though it may not be administrative in nature, has a cost which is not directly identifiable with any one program.

#### Interdepartmental Support Service (I.D.S.S.)

—any departmental activity which renders administrative, technical, advisory, or coordinating services to more than one department, or to the Government of Alberta as a whole.

#### Sub-Program/Sub-Service

—a more specific service within a program/support service. Sub-programs usually identify either different service components for the same beneficiaries, or different beneficiaries for the same services. Sub-services represent a further breakdown of either a D.S.S. or I.D.S.S. (D.S.S.s will not normally have a sub-service breakdown).

#### Program Support/I.D.S.S. Support

—an internal activity within a program or an I.D.S.S. which renders administrative or technical support to more than one sub-program/subservice, or any other activity which, even though it may not be administrative in nature, has a cost which is not directly identifiable with any one sub-program/sub-service.

#### Program Element/Service Element

—either an organizational unit responsible for service delivery, or a specific form of financial assistance (grant, subsidy, payment, etc.) associated with the service.

#### GAS ALBERTA OPERATING FUND

Gas Alberta acts as "gas broker" under the authority of the Rural Gas Act and is responsible for the supply of natural gas to rural gas distributors throughout Alberta. Through this brokerage service, rural gas cooperatives and other rural distributors benefit from uniformly-priced and secure gas supplies. Gas purchases and deliveries are financed through the Gas Alberta Operating Fund and distributors are assessed a wholesale gas rate for their gas supplies.

Gas Alberta may also enter into an agreement or arrangement with a distributor to provide customer billing services. Centralized billing allows these distributors and their customers to benefit from economies of scale as well as expertise in gas measurement and billing. Distributors which participate in the billing program are assessed a charge for this service.
